-	Wagener, Adele			-105.0			-105.0	-105.0	-	-
-	Werth, Adele			-77.0			-77.0	-77.0	-	-

Note: You need to have played in a minimum of four of the five rounds to be eligible.

All scores are based on the traditional Butler method of extricating the maximum and minimum scores on each board to calculate the mean score on the board. Each score is then IMPed against the mean.

All aggregate scores for a session will be rebased to 24 boards (the typical number of boards) for each session.

Scores in red are excluded from the arrowed columns. This will be applicable from Round 3.

The highest "Best Average" score will be the winner of the competition, not the highest aggregate Butler score.
