Some of the comments: Would be great if time changed to 14h00 / I prefer 1/30pm--there is still time to go outside and enjoy the sunlight--especially in winter / Thank you for this opportunity to play online / Maybe play some time but the 1,30 was a difficult time for me / Just love playing on Saturdays and wish more of the old crowd would return / I have always

found 13h30 a difficult time and have therefore preferred to play elsewhere on a Saturday afternoon. / I would not be able to play as often as now if time is later. I'll try to find another opportunity to play earlier
